⁽¹⁾The fully loaded CET1 ratio is an estimate calculated based on bank's supervisory reporting. Therefore, any capital instruments that are not eligible from a regulatory point of view at the reporting date are not taken into account in this calculation. Fully loaded CET1 capital ratio estimation is based on the formulae stated in column "COREP CODE" – please note that this might lead to differences to fully loaded CET1 capital ratios published by the participating banks e.g. in their Piller 3 disclosure

Notes and definitions

Information disclosed in this template is sourced from COREP template C 33, introduced with the reporting framework 2.7, applicable for reports as of 31 march 2018.

(1) Information on sovereign exposures is only available for institutions that have sovereign exposures of 10% or more compared to total sovereign exposures. Where the latter threshold is not met, information is disclosed through the aggregate "Others".

(2) The exposures records cover or view consoures to central, recording all cases are designed and case of the control of the counterparts with full or cartial coverment cuarantees.

(3) The basks disclose the exposures in the "Financial assets held for tradition" confloid after offsettime the cash short oxidions have to the exposures of the exposures of the "Financial assets held for tradition" confloid after offsettime the cash short oxidions have the same institution.

(4) The exposures recorded noting the controls towards counterparts (offset the assets and the approximation of the controls towards counterparts (offset the assets and the approximation of the controls towards counterparts (after the native exposures to counterparts (offset then novereign) with full or partial government guarantees by central, regard and focal governments (offset then novereign) with full or partial government guarantees by central, regard and focal governments (offset then novereign) with full or partial government guarantees by central, regard and focal governments.

(3) Residual countries not reported separately in the Transparency exercise

OFF-BALANCE SHEET EXPOSURES	1,763		157	157	5	12	0	1,763		175	173	5	13	0	

⁽¹⁾ For the definition of non-performing exposures please refer to COMMISSION IMPLEMENTING REGULATION (EU) 2015/227 of 9 January 2015, ANNEX V, Part 2-Template related instructions, subtitle 29

⁽²⁾ Institutions report here collective allowances for incurrred but not reported losses (instruments at amortised cost) and changes in fair value of performing exposures due to credit risk and provisions (instruments at fair value other than HFT)

⁽⁹⁾ Institutions report here specific allowances for financial assets, individually and collectively estimated (instruments at amortised cost) and changes in fair value of NPE due to credit risk and provisions (instruments at fair value other than HFT)

⁽⁴⁾ For the on-balance sheet items, accumulated impairments and accumulated negative changes in fair value due to credit risk are disclosed with a positive sign if they are decreasing assets. Following this sign convention, information is disclosed with the opposite sign of what is reported according to the FINREP framework (templates F 18.00 / F 19.00), which follows a sign convention based on a credit/debit convention, as explained in Annex V, Part 1 paragraphs 9 and 10 for Regulation (EU) No 680/2014 - ITS on Supervisory reporting. However, for the off-balance sheet instruments, the same item ('Accumulated impairment, accumulated changes in fair value due to credit risk and provisions') is disclosed consistently with the FINREP sign convention. This is because, based on this sign convention of fib-balance sheet commitments are generally reported with a positive sign.
