<b>Subject matter</b>	FINREP: Reporting of insurance subsidiaries
<b>Question</b>	<p>According to new Finrep instructions templates F 1.1/1.2/1.3 should be reported according to the CRR scope of consolidation and template F17 according to the IFRS scope of consolidation. 1)Does this mean all tables (except template F17) should be reported according to CRR scope (which excludes insurance subsidiaries)? 2)CRR scope: Although insurance subsidiaries should not be consolidated according to the instructions, we assume the investments in and intercompany positions with insurance subsidiaries and the related P&amp;L components with/from these subsidiaries should be reported somewhere in the consolidated figures. Is that correct? If yes, which lines in templates F 1.1-1.3 (balance sheet) and template F2 (P&amp;L) should we use for this purpose?</p>
<b>Background on the question</b>	We are not sure how to report insurance subsidiaries in FINREP.
<b>Final answer</b>	1) Yes, all templates should be reported according to the CRR scope of consolidation except template F 17 and F 40, which shall be filled in under the accounting (IFRS) scope of consolidation.

	<p>Article 18(1) of the Regulation (EU) No. 575/2013 (CRR) defines the methods for prudential consolidation. According to this, institutions shall carry out a full consolidation of all institutions and financial institutions that are its subsidiaries. However, according to paragraph 2 of the same Article 18, the competent authorities may on case-by-case permit proportional consolidation.</p> <p>2) When insurance (and other) subsidiaries are not included in the CRR scope of consolidation, amounts related to them shall be reported in templates F 01.01, F 01.03 and F 02.00 in those items related to investments in subsidiaries, joint ventures and associates.</p>
