COMMISSION IMPLEMENTING REGULATION (EU) .../...

of **XXX**

amending the implementing technical standards laid down in Implementing Regulation (EU) 2021/637 as regards the disclosure of environmental, social and governance risks (ESG risks)

(Text with EEA relevance)

THE EUROPEAN COMMISSION,

Having regard to the Treaty on the Functioning of the European Union,

Having regard to Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013 on prudential requirements for credit institutions and amending Regulation (EU) No 648/2012¹, and in particular Article 434a thereof,

Whereas:

- (1) Commission Implementing Regulation (EU) 2021/637² specifies uniform disclosure formats and associated instructions for the disclosures required under Titles II and III of Regulation (EU) No 575/2013. Regulation (EU) No 575/2013 was amended by Regulation (EU) 2019/876³, *inter alia* to introduce a new Article 449a. That Article requires large institutions that have issued securities that are admitted to trading on a regulated market of any Member State to disclose, as from 28 June 2022, information on environmental, social and governance (ESG) risks, including physical risks and transition risks. That amendment to Regulation (EU) No 575/2013 should be reflected in Commission Implementing Regulation (EU) 2021/637, which should set out, in addition to the existing uniform disclosure formats and associated instructions, additional uniform disclosure formats and associated instructions for the disclosures of ESG risks.
- (2) When laying down uniform disclosure formats, the complete materiality of the information to be disclosed should be taken into account. That means that disclosures by institutions should cover, on the one hand, the financial impact of ESG factors on the institutions' economic and financial activities (outside-in perspective), and, on the other hand, the ESG factors that may be triggered by the institutions' own activities,

¹ OJ L 176, 27.6.2013, p. 1.

² Commission Implementing Regulation (EU) 2021/637 of 15 March 2021 laying down implementing technical standards with regard to public disclosures by institutions of the information referred to in Titles II and III of Part Eight of Regulation (EU) No 575/2013 of the European Parliament and of the Council and repealing Commission Implementing Regulation (EU) No 1423/2013, Commission Delegated Regulation (EU) 2015/1555, Commission Implementing Regulation (EU) 2016/200 and Commission Delegated Regulation (EU) 2017/2295 (OJ L 136, 21.4.2021, p. 1).

³ Regulation (EU) 2019/876 of the European Parliament and of the Council of 20 May 2019 amending Regulation (EU) No 575/2013 as regards the leverage ratio, the net stable funding ratio, requirements for own funds and eligible liabilities, counterparty credit risk, market risk, exposures to central counterparties, exposures to collective investment undertakings, large exposures, reporting and disclosure requirements, and Regulation (EU) No 648/2012 (OJ L 150, 7.6.2019, p. 1).

which in turn become financially material when they affect institutions' stakeholders (inside-out perspective). As a result, the tables and templates used for those disclosures should convey sufficiently comprehensive and comparable information on ESG risks, thus enabling users of that information to assess the risk profile of institutions.

- (3) It is necessary to ensure coherence and consistency with other Union legislation in the area of ESG risks. Rules on the disclosure of ESG risks should therefore take into account the criteria, classifications and definitions laid down in that Union legislation. Those rules should in particular take into account the criteria for the identification and classification of environmentally sustainable economic activities, as laid down in Regulation (EU) 2020/852 of the European Parliament and of the Council⁴ and in Commission Delegated Regulation (EU) 2020/1818⁵. With regard to the disclosure of information on the energy performance of the real estate portfolio of institutions, the information provided by the energy performance certificate as defined in Article 2, point 12, of Directive 2010/31/EU of the European Parliament and of the Council⁶, should be taken into account.
- (4) Articles 19a and 29a of Directive 2013/34/EU of the European Parliament and of the Council⁷ require certain large undertakings that are public-interest entities, or public-interest entities which are parent undertakings of a large group, respectively, to include in their management report or in their consolidated management report information about the impact of their activity on environmental, social and employee matters, respect for human rights, anti-corruption and bribery matters. That obligation does not apply, however, to other undertakings. As a result, undertakings that are not subject to Articles 19a and 29a of Directive 2013/34/EU are not required to disclose such information and may be not able to provide such information to institutions. Those undertakings that are counterparties to institutions can thus only be expected to provide that information and data on a voluntary basis. Nevertheless, it is appropriate to provide those undertakings with guidance on the calculation of the percentage of the exposures to activities that are environmentally sustainable economic activities as referred to in Article 3 of Regulation (EU) 2020/852, so that that information and those data can be presented in a standardised and comparable format. Where that information and those data are not provided voluntarily, institutions should be able to calculate the percentage of taxonomy-aligned exposures by using estimates or proxies.
- (5) Article 449a of Regulation (EU) No 575/2013 requires that the information on ESG risks is disclosed as of 28 June 2022, and thereafter on an annual basis for the first year and biannually thereafter. For those reasons, the first annual disclosure reference date should be set as of 31 December 2022.

⁴ Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment, and amending Regulation (EU) 2019/2088 (OJ L 198, 22.6.2020, p. 13).

⁵ Commission Delegated Regulation (EU) 2020/1818 of 17 July 2020 supplementing Regulation (EU) 2016/1011 of the European Parliament and of the Council as regards minimum standards for EU Climate Transition Benchmarks and EU Paris-aligned Benchmarks (OJ L 406, 3.12.2020, p. 17).

⁶ Directive 2010/31/EU of the European Parliament and of the Council of 19 May 2010 on the energy performance of buildings (OJ L 153, 18.6.2010, p. 13).

⁷ Directive 2013/34/EU of the European Parliament and of the Council of 26 June 2013 on the annual financial statements, consolidated financial statements and related reports of certain types of undertakings, amending Directive 2006/43/EC of the European Parliament and of the Council and repealing Council Directives 78/660/EEC and 83/349/EEC (OJ L 182, 29.6.2013, p. 19).

- (6) This Regulation is based on the draft implementing technical standards submitted to the Commission by the European Banking Authority.
- (7) The European Banking Authority has conducted open public consultations on the draft implementing technical standards on which this Regulation is based, analysed the potential related costs and benefits and requested the advice of the Banking Stakeholder Group established in accordance with Article 37 of Regulation (EU) No 1093/2010 of the European Parliament and of the Council⁸.
- (8) Implementing Regulation (EU) 2021/637 should therefore be amended accordingly,
- HAS ADOPTED THIS REGULATION:

For the purposes of point (a), institutions shall inform their counterparties that the provision of such information is voluntary.
