DE	Germany	Bundesanstalt für Finanzdienstleistungsaufsicht (BaFin)	Does not comply/ does not intend to comply	Setting up the list of institutions on a yearly basis comes along with a changing sample. Therefore, some LSIs that have not been affected in the past might have to take part in the following year in order to fulfil the criteria to cover 75% of the banking system's assets. Meanwhile, there is high uncertainty if the new institutions are going to be part in the sample in the following year again. In order to stay consistent and to keep the data and cost burden low we are collecting funding plan data for all German SIs as well as for a couple of German subsidiaries of European SIs. As this sample of German institutions is currently representing more than 65% of the German banking system's total
