Notes and definitions

(1) The amount is already included in the computation of the eligible capital and reserves and it is provided separately for information purposes.

(2) According with CRD3 it can include also 50% securitisation exposures in the trading book subject to 1250% risk weight and not included in RWA.

(3) It includes also possible differences between the book value and the fair value of: (i) direct sovereign exposures in derivatives; (ii) indirect sovereign exposures in the banking and trading book

Notes and definitions

(1) The exposures reported cover only exposures to central, regional and local governments on immediate borrower basis, and do not include exposures to other counterparts with full or partial government guarantees

(2) The banks disclose the exposures in the "Financial assets held for trading" portfolio after offsetting the cash short positions having the same maturities.

(3) The exposures reported include the positions towards counterparts (other than sovereign) on sovereign credit risk (i.e. CDS, financial guarantees) booked in all the accounting portfolio (on-off balance sheet). Irrespective of the denomination and or accounting classification of the positions **the economic substance over the form** must be used as a criteria for the identification of the exposures to be included in this column. This item does not include exposures to counterparts (other than sovereign) with full or partial government guarantees by central, regional and local governments

(4) According with CEBS Guidelines on prudential filters it is required a consistent treatment of gains and losses resulting from a transaction whereby a cash flow hedge is created for an available for sale instrument: i.e. if the gains on the hedged item are recognised in additional own funds, so should the results of the corresponding cash flow hedging derivative. Moreover if fair-value hedging contracts on sovereign assets are taken in consideration for the computation of the prudential filters (before their removal), the FV of such contracts must be reported in the column AB.

(5) Please report gross and net direct positions before eventual write-off (PSI); in the column provisions must be included eventual write-off (PSI).

Notes and definitions

(1) The exposures reported cover only exposures to central, regional and local governments on immediate borrower basis, and do not include exposures to other counterparts with full or partial government guarantees

(2) The banks disclose the exposures in the "Financial assets held for trading" portfolio after offsetting the cash short positions having the same maturities.

(3) The exposures reported include the positions towards counterparts (other than sovereign) on sovereign credit risk (i.e. CDS, financial guarantees) booked in all the accounting portfolio (on-off balance sheet). Irrespective of the denomination and or accounting classification of the positions **the economic substance over the form** must be used as a criteria for the identification of the exposures to be included in this column. This item does not include exposures to counterparts (other than sovereign) with full or partial government guarantees by central, regional and local governments

(4) According with CEBS Guidelines on prudential filters it is required a consistent treatment of gains and losses resulting from a transaction whereby a cash flow hedge is created for an available for sale instrument: i.e. if the gains on the hedged item are recognised in additional own funds, so should the results of the corresponding cash flow hedging derivative. Moreover if fair-value hedging contracts on sovereign assets are taken in consideration for the computation of the prudential filters (before their removal), the FV of such contracts must be reported in the column AB.

(5) Please report gross and net direct positions before eventual write-off (PSI); in the column provisions must be included eventual write-off (PSI).
