
(1) The amount is already included in the computation of the eligible capital and reserves and it is provided separately for information purposes.
(2) According with CRD3 it can include also $50 \%$ securitisation exposures in the trading book subject to $1250 \%$ risk weight and not included in RWA
(3) It includes also possible differences between the book value and the fair value of: (i) direct sovereign exposures in derivatives; (ii) indirect sovereign exposures in the banking and trading book
