

DRAFT ANNEX XXV

REPORTING ON LIQUIDITY (PART 4: COLLATERAL SWAPS)

1. Collateral swaps

1.1. General remarks

1. Any transaction maturing within 30 days in which non-cash assets are swapped for other non-cash assets, shall be reported in this Template. Items which do not need to be completed by institutions are coloured grey.
2. Collateral swaps that mature within 30 days shall lead to an outflow for the excess liquidity value of the assets borrowed compared to the liquidity value of the assets lent unless the counterparty is a central bank in which case a 0% outflow shall apply.
3. Collateral swaps that mature within 30 days shall lead to an inflow for the excess liquidity value of the assets lent compared to the liquidity value of the assets borrowed unless the collateral obtained is re-hypothecated to cover short positions that can be extended beyond 30 days in which case a 0% inflow shall apply.
4. For liquid assets the liquidity value is according to Article 9, for non-liquid assets the liquidity value is zero.
5. Each collateral swap transaction shall be assessed individually and the flow reported as either an outflow or an inflow (per transaction) in the corresponding row. If one trade contains multiple categories of collateral type (e.g. a basket of collateral) then for reporting it shall be split into parts corresponding with the template rows and assessed in parts.
6. In the case of a significant currency return, the reported balances shall comprise only those which are denominated in the significant currency to ensure that currency gaps are correctly reflected. This may mean that only one side of the transaction is reported in the significant currency template, with corresponding impact on the excess liquidity value.
7. Collateralised derivatives flows within 30 days shall be reported on this Template in Columns 090-120, not in Columns 010-080.

1.2. Specific remarks

8. Institutions shall only report the Level 1, 2A and 2B assets that qualify as liquid assets in accordance with Title II. For collateral lent, this refers to assets that would qualify upon maturity as liquid assets in accordance with Title II, including general and operational requirements as defined in Articles 7 and 8 of the Delegated Act.
9. Where collateral meets the criteria for Level 1, 2A or 2B in Articles 10-19 of the Delegated Act but does not qualify as liquid asset in accordance with Title II, including general and operational requirements as defined in Articles 7 and 8 of the Delegated Act, it shall be reported as non-liquid. Similarly, where an institution may only recognise part of their foreign currency shares, or foreign currency central government or bank assets, or domestic currency central government or central bank assets within their HQLA, only the recognisable part shall be reported within the Levels 1, 2A and 2B rows (refer to Article 12 (1 c i to iii) and Article 10 (1 d)). Where the particular asset is used as collateral but in an amount which is surplus to the portion which can be recognised within liquid assets, the surplus amount shall be reported in the non-liquid section.

10. Collateral Swaps involving Level 2A assets shall be reported in the corresponding L2A asset row, even if the Alternative Liquidity Approach is being followed (i.e. do not move L2A to L1 in the collateral swaps reporting).
